

# KUDOS of the Diaspora

## Target audience:

30 -80 years

## Objective:

3<sup>rd</sup> and 4<sup>th</sup> generation to respect and appreciate the 1<sup>st</sup> generation achievements

This is an overdue overview compilation of the 1<sup>st</sup> generation of Caribbean migrants discussing their story talking about what really happened in the 'Windrush' era.

The reason why this happened and how it happened will be spoken by the individuals that actually walked the walk for the 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> generation of Caribbean heritage in the UK today.

The recognition and understand the importance of what happened, and appreciate the reasons to work forward to unite as a Caribbean culture is an essential part of our positive future.

This is better than any book you may read, any conversation you may have with someone with knowledge, as it will be from the people themselves that got aboard the ship and did the journey and laid the foundation for us.

Kudos of the Diaspora is to honour the achievement of our 1<sup>st</sup> generation as this life changing journey, that occur many years ago, has a standing distinction that makes them true celebrities with good reputation without the notability to fame.

"Our 1<sup>st</sup> generation will rather have kudos rather than profit"
